

**TABLE 20: GEOGRAPHICAL DISTRIBUTION OF INDUSTRIES**

INDUSTRY	MAJOR PROD. AREAS	PRODUCTS
1. Agro-based	Keta, Tegbi, Woe, Whuti	Smoked, fried and salted fish
(a) Fish-processing	Srogboe, Anyako	
(b) Cassava Processing	Heluvi, Weune, Sasieme, Dorveme, Atsiame, Tsiamé	Gari, Biscuits, Tapioca
(c) Sugar-cane juice Processing	Tregui, Benadzi, Azanu, Trekume, Bleamezado, Nyikator, Agorvinu, Hatorgodo, Havi	Local Gin (Akpateshie)
(d) Coconut-Oil Extraction	Dzelukope, Anyanui, Anloga, Woe, Tegbi	Coconut Oil
2. Mining		
(a) Salt mining	Afiadenyigba, Seva, Anyako	Salt
(b) Sand Mining	Atsiame, Heluvi, Dzelukope	Sand
3. Wood Based		
a) Carpentry	Keta, Dzelukope, Anloga, Tegbi, Woe, Abor	Furniture Canoes, Standing brooms
4. Textile		
(1) Fabrics	Dzelukope, Afiadenyigba, Tsiamé, Atiavi, Anyako, Sasieme	Kente cloth, placemats, bags, bed spreads
Straw Weaving	Alakple, Tregui, Azanu, Ahavi, Agortoe, Gbatsivi	Straw mats
Service	Keta, Dzelukope, Anloga, Tegbi, Woe, Abor, Srogboe	Hairdressing Vehicle repairs Equipment repairs etc.
Ceramics	Hatorgodo, Atiavi, Bomigo, Anyanui	Pots, Roofing tiles

**TABLE 21: DEVELOPMENT POTENTIALS IN KETA DISTRICT**

Type of potential	Location	Remark
1. <b>AGRICULTURE</b>		
1. Shrimps and brackish water species	Angaw, Lagoon	Development for both local consumption and for export.
2. Marine fishing	Keta lagoon	Development for both local consumption and for export.
3. Inland fishing	Keta Lagoon	Development for both local consumption & export.
1.1 <b>SOILS</b>		
1. Toje-Alajo		Suitable for arable crops like cassava, vegetable, cotton, mango, cashew, coconut, rice, maize tobacco.
2. Amo-Tefle		Suitable for sugarcane cassava, vegetable, cotton, mango, cashew, coconut, rice, maize, tobacco
3. Ada-Oyibi		A few areas suitable for pasture
4. Oyibi-Muni association		Area subject to periodic flooding and therefore unsuitable for agriculture

5. Keta association		Suitable for growing coconut
2.INDUSTRIAL 1. Clay deposits	Bomigo	Over 15 million tones estimated. Can be used for ceramics, bricks, and tiles, both for industrial and housing projects.
2. Salt mining/wining	Coastal stretch of the district (Savietula) and Afiadenyigba in the northwestern section.	Needs revamping both technical and financial. Can be a basis for establishment of chemical industries. To be promoted for private sector investment.
3. Crude oil	Keta basin coastal and offshore	Needs further exploration
4. Kente Weaving	Asadame, Tsiame, Sasieme, Norlopi, Abolovi, Afiadenyigba	Can produce for local textile and tourist industries and export.
5. Mats, hats, bag weaving	Keta, Abor, Alakple, Anloga	Can be a base for non-traditional export.
6. Sugar cane pulp	Hatorgodo, Tsiame, (middle-belt)	Sources of raw material for the paper industry
3. TOURISM 1. Rich tradition and culture "Hogbetsotso festival"	District wide	- A force in uniting the people to undertake development projects. -Main tourist asset.
2. Tourist sites	Whuti, Atiteti, cape st. Paul (woe), traditional military grove (Tsiame)	Employment generation and revenue mobilisation for district assembly.
3. Fort Prinzenstein	Keta	Major tourist asset, but needs rehabilitation
4. Keta Lagoon		Major tourist asset, and needs dredging
5. Shoreline beaches	Keta, Tegbi, Dzelukope, Woe	Major tourist asset , but needs conservation and management
6. Birds and wet lands	Mid-western sectors of the district	District should compliment the efforts of the RAMSEY project by educating students, and the communities
4. HUMAN RESOURCE A high literate population	Throughout the district	A potential labour force for the agricultural and industrial sectors
